Under the New Business section of the agenda part A, the Board reviewed a proposed amendment to Title 19 on adding a definition for Electrical Contractor under section 19.04.020 and also amending section 19.08.005 to read, “It is unlawful for any person, firm or corporation to engage in the business of electrical contractor within the City without having secured an electrical license from the superintendent of central inspection”.

Under the New Business section of the agenda part B, the Board reviewed a proposed new section, 19.12.025, to Title 19 to clarify when an inspection is required and that the company requesting the inspection is required to provide access to and means for the inspection.

Under the New Business section of the agenda part C, the Board reviewed a proposed amendment to Title 19 section 19.08.172 on truth in advertising requirements. The proposed addition to the wording would cover internet posting/publication, electronic billboard, or any electronic or telephonic transmission of information.

Board member Bishop made a motion to accept the proposed amendments and the creation of the new section as written for Central Inspection to present to Council for addition to the City ordinance. Board member Kilian seconded the motion and it unanimously passed.

Under the New Business section of the agenda part D, the Board discussed in detail whether to license holiday lighting installers. In the discussion it is the opinion that most of the holiday lights on residential property are installed by the owner/tenant as such the enforcement of such a license would be next to impossible, instead the Board would like to see educating the public to be aware of the dangers of improperly installed lights.

With no other business to conduct, Board member Urban made a motion to adjourn. Board member Bishop seconded the motion and the meeting adjourned.

The time was 3:56pm.

Tom Kerschen, Secretary,
Board of Electrical Appeals
